love and the divine are the best meanings there can be just because love stands at the top of your feelings and you

treasure the most while the divine is everything that exists you cannot find anything beyond love and the divine capable enough to set your meaning in life and in this world simply because there is nothing else beyond them however there is significantly more to learn and understand about the human meaning just because as it is presented in this world today through science literature philosophy and through the rest of ideologies it is not enough you fail to understand the human meaning and this causes you to fail your own meaning in life and in this world at least your natural meaning as you receive it from life and from the divine because the concept of meaning is presented to you empirically today you cannot understand it accurately in this manner but only through doctrine and beliefs you can never engage your reasoning in this manner in order to grasp accurately your own natural meaning your natural meaning is easily hijacked and everything is done on purpose to harm and exploit you in this manner you end up fulfilling consensually implemented meanings throughout life on behalf of the rich and the powerful of this world since they are the ones controlling ideologies and therefore consensual meanings in this world not much that you do now counts for life and for the divine despite of what ideologies tell and promise and when you look back now you may see the kind of world that you create and do not blame the rich and the powerful of this world since you are the one doing everything for them many times it is for your children that you struggle throughout life to make them happy to make them worthy and to make everything count because this is exactly your meaning in your family yet can't it be the same in your community and in society does it ever make a difference to have or not to have a specifically defined meaning in life and in this world yes it certainly makes a difference because all meanings count even the slightest ones since they are connected and it is always a matter of identifying your meanings instead of fulfilling them unknowingly otherwise you end up working your entire life in vain while through your consensually induced meanings you end up working against the meanings of others deliberately or not living your life against your

loved ones while they can certainly feel and this ruins entire relationships this is your consensual meaning in your family in society in life and in this world and so you end up living your life against yourself against your own natural meaning throughout this book we follow identify define understand and model the human meaning genuine and consensual from all perspectives and in all contexts you learn about your meaning in life in this world in society within your family and genetic line within you own cognitive system within higher worlds and within everything that exists

were there advanced civilizations on earth older than what it is currently believed and accepted because we keep noticing their traces everywhere while authorities deny their presence are there other civilizations out there among planets and stars because we keep seeing their people around here pursuing their obscure interests with authorities ignoring everything are there nonhuman civilizations on earth in parallel with the human civilization because they interact from the shadow of the underground with the human civilization while again authorities deny systematically their presence and when authorities are constrained in any way to give an answer they state vaguely that it is a matter of human survival and how can humans defend themselves of anyone and anything as they are held in ignorance and denial is there life after death because countless of people had died and came back to tell their story and it is always consistent this implies the existence of higher extraordinary civilizations in parallel with the human civilization from above these higher civilizations could be possible since their niches of life and existence are accurate and already present within other realities science and academia ignore this topic entirely ridiculing all seekers of higher truth and forcing them in this manner to stop their research what can there be more important to know in this world than the meaning of life itself the meaning of this entire human civilization along with the meaning of the lives and existence of all humans here in this world and in all higher worlds why postponing disclosure if it is imperative for people s wider existence who profits and who loses through this entire coverup who exactly controls the current

human authority why is humanity kept ignorant in what it concerns the most important subject of all life everywhere and life eternally intelligent and civilized life because if there are other civilizations on earth and elsewhere human or not if there are other realities up there besides this one populated and civilized then people s ignorance renders them vulnerable when they die and have to go elsewhere in this manner once you ignore the kind of realities that may be out there you might be tricked to go and live in treacherous dubious unholy worlds claiming that they are in fact the holly lands promised to you by your own religion and so you disappear because it is stated in religious records to be careful not to follow false deities yet how can you know anything in this domain if you are kept ignorant the entire time and probably lied to misled and many times tempted with irrelevant material compensations throughout life this book helps you understand civilizations from a rigorous comprehensive perspective including the meaning interests agreements and intentions that civilizations have in the wider world why individuals form civilizations as an end product of their cumulative lifetime efforts and furthermore what meanings these civilizations have in the wider world

against the popular belief that language and meaning are essentially public in their epistemological origin this book offers a philosophical basis for its antithesis the author refutes the separation of reference from meaning the long held logical principle of the identity of the indiscernibles and wittgenstein s no private language philosophy
